

# 20U Colocation in CoreSite LA1 (One Wilshire) Los Angeles

Coresite LA1 in One Wilshire Building is by far the best interconnected neutral datacenter on East Coast . If your business requires to be on the same floor with over 250 other ISP, content providers, cloud companies servicing US and Asia, then Coresit should be your choice. The local Internet Exchange (Any2) has over 235 networks connected that exchange traffic privately increasing quality and lowering the IP transit cost.

## 1 Year Commitment - Price per Month

The price is for a full calendar month and you commit to pay this price monthly for a full year (one day prior of activation date, next year). You cannot switch to a shorter commitment term and if you request service termination prior the one year anniversary, you still have to pay monthly the cost of this service until the last day of last month or pay a significant termination fee.
