

Full Rack Colocation in NXDATA-2 Bucharest

NXDATA-2 is located in a modern building less than a kilometer away from NXDATA-1 offering the second best interconnection options with over 35 networks hosted here, including main Internet Exchanges in Bucharest. NXDATA-2 is a safe location to deploy both servers and telco equipment especially when the required power draw is high.

1 Year Commitment - Price per Month

The price is for a full calendar month and you commit to pay this price monthly for a full year (one day prior of activation date, next year). You cannot switch to a shorter commitment term and if you request service termination prior the one year anniversary, you still have to pay monthly the cost of this service until the last day of last month or pay a significant termination fee.
