

Full Rack Colocation in Voxility IRD Bucharest

Voxility IRD is strategically located between the two main interconnection datacenters in Bucharest, at just few hundreds of meters away. A service provider hosted in this location can interconnect simultaneously through standard Cross Connects with all networks in NXData-1 and NXData-2 along with all companies already present in Voxility IRD, including Interlan, the largest Romanian public Internet Exchange. Voxility IRD offers a good value for large servers deployments.

No Commitment - Price per Month

The price is for a full calendar month, regardless of how many days are within that month. You can request to cancel the service anytime ("no contract"), but the service will be terminated, regardless if it's used or not, in the last day of that month.

Prices does not include taxes

PRODUCT SPECIFICATIONS

The price includes the system described below. Components marked with  can be replaced with others in the same category from Alternative Options list. Some options might not work if they are mixed together in this system

Good For	XXX
Datacenter	Voxility IRD Bucharest
Address	9-9A Dimitrie Pompei, Building 24, Bucharest 020335, Romania (map)
Space	4 2U, Full-depth, 19" Rackable Cabinet, HPG 2
Guarantees	99,999% power when using both lines
Who's here	All from NXData-1 and NXData-2 through a cross-connect
Speed Test	buc.voxility.net
Power Circuits	2 lines (A primary + B redundant) each one with 3 circuits of 16A
Voltage	230V
Power Supply	9,66 kVA (42A draw in total) maximum power draw from both lines
Power consumption	Charged separately
How many servers will fit?	Approximately 24000 Watts of primary server sources + 24000 Watts of redundant sou...
