

# HPE ProLiant DL160 Gen9 (2xE5-2680v4) 4-LFF

This top-of-line DL160 configuration is designed to "power" virtual machines or applications that are programmed to take advantage of multiple cores like web servers without requiring significant storage or redundancy capabilities. This model is equipped with two powerful processors, making ideal to be used by heavy applications balanced across multiple servers of this configuration.

### No Commitment - Price per Month

The price is for a full calendar month, regardless of how many days are within that month. You can request to cancel the service anytime ("no contract"), but the service will be terminated, regardless if it's used or not, in the last day of that month.
