

# HP i7-2600

## 3.4 GHz Sandy Bridge

A powerful processor inside a basic system good as low-cost virtualization node, media encoding and general webhosting. Works best with SSD and not recommended for high network I/O applications like streaming.

### No Commitment - Price per Month

The price is for a full calendar month, regardless of how many days are within that month. You can request to cancel the service anytime ("no contract"), but the service will be terminated, regardless if it's used or not, in the last day of that month.

Prices does not include taxes
