

# Pseudowire Circuit Between Datacenters in EU

A redundant point-to-point Ethernet link that emulates the physical transport layer (e.g., wavelength) between two datacenters in Europe.

### No Commitment - Price per Month

The price is for a full calendar month, regardless of how many days are within that month. You can request to cancel the service anytime ("no contract"), but the service will be terminated, regardless if it's used or not, in the last day of that month.

Prices does not include taxes

#### Monthly

+ Usage

Support for Connectivity issues not included in Standard SLA is charged

#### One-Time Setup

Delivery in

	Total
Monthly	\$517.50
+ Usage	\$115/Issue
One-Time Setup	\$1035.00
Delivery in	

## PRODUCT SPECIFICATIONS

The price includes the system described below. Components marked with ● can be replaced with others in the same category from Alternative Options list. Some options might not work if they are mixed together in this system
