

# APC AP8841 Metered Rack PDU - 5.0kW - 208V x 30A

This PDU provides active metering to monitor energy consumption remotely via Internet. It indicates overload and warning conditions based on the thresholds.

## 1 Year Commitment - Price per Month

The price is for a full calendar month and you commit to pay this price monthly for a full year (one day prior of activation date, next year). You cannot switch to a shorter commitment term and if you request service termination prior the one year anniversary, you still have to pay monthly the cost of this service until the last day of last month or pay a significant termination fee.
